

## Practice questions – Year 5 and 6 – Short division 4 digit by 2 digit

1.  $9,483 \div 23$  (short division 4 by 2 digit)
2.  $8,126 \div 14$  (short division 4 by 2 digit)
3.  $7,052 \div 18$  (short division 4 by 2 digit)
4.  $9,984 \div 24$  (short division 4 by 2 digit)
5.  $8,640 \div 12$  (short division 4 by 2 digit)
6.  $7,539 \div 19$  (short division 4 by 2 digit)
7.  $9,271 \div 21$  (short division 4 by 2 digit)
8.  $6,178 \div 15$  (short division 4 by 2 digit)

## Practice question answers – Year 5 and 6 – Short division 4 digit by 2 digit

1.  $9,483 \div 23 = 412$  remainder 7 (short division 4 by 2 digit)
2.  $8,126 \div 14 = 580$  remainder 6 (short division 4 by 2 digit)
3.  $7,052 \div 18 = 391$  remainder 14 (short division 4 by 2 digit)
4.  $9,984 \div 24 = 416$  (short division 4 by 2 digit)
5.  $8,640 \div 12 = 720$  (short division 4 by 2 digit)
6.  $7,539 \div 19 = 396$  remainder 15 (short division 4 by 2 digit)
7.  $9,271 \div 21 = 442$  remainder 9 (short division 4 by 2 digit)
8.  $6,178 \div 15 = 411$  remainder 13 (short division 4 by 2 digit)
